7 MAR 2005

MEMORANDUM FOR SELECTED AIR FORCE LEADERS

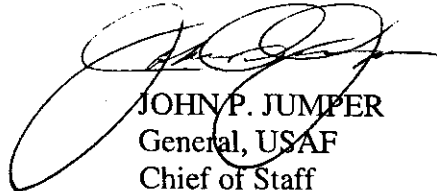

FROM: HQ USAF/CC  
1670 Air Force Pentagon  
Washington, DC 20330-1670

SUBJECT: AF Fitness Program Review

We have completed our first year of the new Air Force fitness program. I am pleased with our initial results. As we work to refine our program, we need to hear from you – our leaders in the field, both officer and NCO. I need your feedback – it is important and necessary.

I have asked our Surgeon General to review the entire program and make improvement and sustainment recommendations. To do this, AF/SG initiated a comprehensive fitness program review. This review will include your leadership insight. We will gather information on the program's implementation, administration, and support through a web-based survey. The Air Force Personnel Center will email you a web address linking you to this survey. We need the survey completed by 28 March 2005.

We will consolidate your feedback and recommendations and address them as part of the AFI 10-248 *Fitness Program* update and review process. Your opinions are important for making our fitness program the best it can be for the health of our Airmen and the health of the force.

JOHN P. JUMPER  
General, USAF  
Chief of Staff
